

Import Animal Commodities

PT. Agrigrow International Trading with a valid import export license can be used to import products & offer high quality products. We are aware of the high demand for imported feed raw materials from consumers but are constrained by international currencies or some other reasons, so some consumers prefer to buy from existing stock. and create opportunities to provide maximum benefits to our buyers.

PT. Agrigrow International Trading was established in 2014 with a primary focus on agricultural products, food products and animal feed raw materials.

We are a company based in Indonesia and have Representative Offices in New Zealand, Australia, Vietnam and India.

We are direct top importir animal feed products such as Corn DDGS, RSM, SBM, Rice DDGS, Australian Standard Wheat, Low Fat Corn DDGS and One of Promoters of NON GMO Products

PT. Agrigrow International Trading since 2014 has dared to supply Animal Feed to large industries in Surabaya, Medan and Jakarta. We realize that to survive in this very competitive market, the supply of goods from our warehouse is very important for small-scale industries, and large-scale industries, as well as animal feed companies.
